

# All India Survey on Higher Education (AISHE) data from 2017-2022

## Abstract

This report analyses All India Survey on Higher Education (AISHE) data from 2017-2022 to understand enrolment patterns, gender distribution, institutional growth, and regional disparities..

It highlights key national-level trends and provides insights through visual dashboards and comparative analysis.

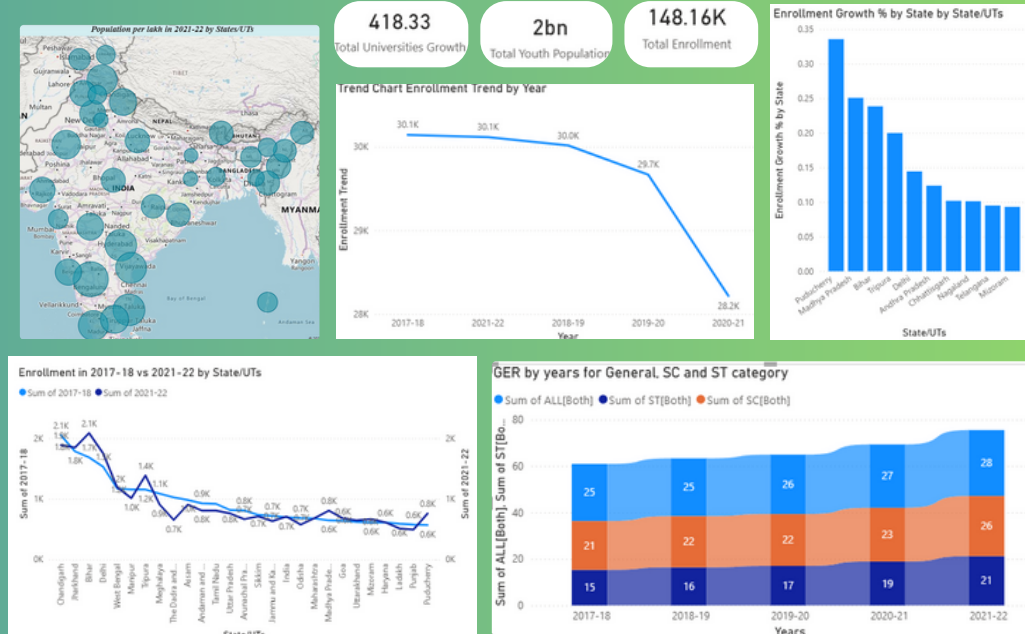

## Objectives

Analyse year-wise enrolment trends in higher education across India.

Compare male-female enrolment ratios and understand gender inclusion progress.

Identify regional variations and state-wise growth patterns.

## Dashboard

## Data Preprocessing Steps

Extract PNG tables and other data

Convert PNG to excel, Handle missing values, Standardise headers

Build categories, Years, dimensions.

Import data to Power BI

Remove columns, Change data types, promote headers, replace values

## Socio-Economic Impact

Improved literacy and higher education access lead to better employment opportunities.

Increased female enrolment strengthens gender equality and economic participation.

Growth in institutions supports skill development and contributes to India's workforce.
